DOCUMENTED RECORD · PARTY-AUTHORED EVENT ACCOUNT

AfD's own account of its January 25, 2025 campaign launch in Halle identifies Alice Weidel as its chancellor candidate and records Elon Musk addressing the event by live video.

This party-authored record establishes the event's account of participation and candidacy. Its characterizations of government roles and its campaign rhetoric are not adopted here as independent findings. Participation alone does not establish Trump authorization or operational coordination.

The February 14, 2025 vice-presidential pool report records an official in Vance's office confirming that he met Alice Weidel during his Germany visit.

The 20:31 CET entry attributes this confirmation to an unnamed office official; it is not the reporter's account from inside the meeting. The same official said Vance met leaders of all major German parties and named other meetings. No agenda, commitments or coordination agreement is recorded in this entry.

DOCUMENTED RECORD · CIVIL COMPLAINT AND COMPANY COUNTERPOSITION

American Oversight and Campaign for Accountability filed a September 17 civil complaint in D.D.C. 1:26-cv-03258 alleging that paid Truth API access gives subscribers earlier access to official government posts.

The plaintiffs seek a declaration and an injunction against official posts through accounts covered by Truth API. Filing the complaint establishes their allegations, not judicial findings. Trump Media's earlier SEC-filed statement describes a licensed feed of public posts; it predates this suit. Later docket responses or rulings were not inspected for this entry.
